

Simone Micheli

Professor at the University, in 1990 he founded the architectural studio with his name and in 2003 he founded the Design Company "Simone Micheli Architectural Hero".

His works of architecture, contract, interior design, exhibit design, graphic and communication are strictly linked to the world of the sensorial glorification.

He takes care of experimental events for some of the most qualified international fairs.

He shows his projects in the most important world-wide exhibitions about architecture and design.

Several monographies and publications about his works are published in the most important international magazines and books.

Arch. Simone Micheli projects are published on line in the web site: www.simonemicheli.com
